Rokha,

We need you tomorrow morning very briefly to check on things in the RA suite. They'll begin work around 8:15 a.m. The likelihood of a problem is low, but the potential impact of a problem would be very high tomorrow morning. Can you go in around 8:15 and stick around for about an hour to make sure things are going smoothly. Overtime is approved.

Thanks.

Matt Duran

**Subject:** EPA Support Situation

Hi there Team,

With the recent events concerning EPA in Durango, it is possible that the REOC or Senior Management staff will need our assistance this weekend. We have just had a few small IT situations today that we have covered. Chris Freed let us know that they might be working this weekend and asked who he could contact if they need assistance. I have let Chris know that he can contact me and if I need assistance I will be contacting some of you depending on the situation or level of assistance they are looking for. I just wanted to give you a heads up and thank you in advance for all your support depending on what will be needed from our shop.

Thank you all again for everything you do. Matt and I will both be keeping in touch with our management if there is anything that is needed.

Always,

Adrea
